## THE SMALL PRINT

Weather: our silk butterflies can be out in all weathers to a point, however if the weather conditions are very adverse (i.e. gale force winds and rain) for health and safety reasons we would need an alternative inside space or we would have to discuss alternative arrangements with your on-site team.

## WARM GLOW

Cabasa is a CIC, working with communities to deliver arts and well being projects as well as wonderful experiences like Small Is Beautiful. By booking one of our experiences for your event you're helping to continue this good work.
